USB-C To Gigabit Ethernet Adapter

Customizable USB-C To Gigabit Ethernet Adapter

The USB-C to Gigabit Ethernet Adapter allows user's computer instantly to connect to a 10/100/1000Mbps network through an existing USB Type-C port. No need to purchase an extra Gigabit network card and share a PCI or Cardbus slot. Compliant with USB 3.0 specification, this adapter ensures true 10/100/1000Mbps network speed without any compromise. Besides, compact and bus-powered design means external power is not required.

Features

- **Instantly connects to 10/100/1000Mbps networks via USB-C**
- **USB 3.0 compliant for true gigabit speeds**
- **Compact, bus-powered design requires no external power**

Specifications

Model	AEC1000
Host / Upstream	
Upstream Port (Host)	1 × USB-C
Host Interface	USB-C
Network	
LAN	1 × RJ45 (1GbE)
Power	
Power Mode	Bus-Powered
General	
Adapter Type	Ethernet
Features	Ethernet
Physical	
Operating Temperature	Operating: 0~40°C; Storage: -20~70°C
