USB-C Universal Dual 4K Adapter with two-bracket design

Customizable USB-C to HDMI – Dual 4K monitors

The USB-C Universal Dual 4K Adapter with two-bracket design is a USB-C Dual 4K HDMI video adapter supporting up to dual 4K60Hz video resolution through DL6950 and fully compatible with most host devices in different operating systems including Windows, MacOS, ChromeOS and Android. The tethered cable features USB-C /A adapter, accordingly it’ s more flexible to support both laptop types equipped with USB-C or USB-A ports.

Features

- **Dual 4K Displays** Supports two displays at up to 4K@60Hz through the DisplayLink DL6950 chipset.
- **Two HDMI 2.0 Ports** Connects two HDMI monitors for an expanded workspace.
- **USB-C and USB-A Connectivity** Includes a 30 cm tethered USB-C cable with a USB-A adapter.
- **Broad OS Compatibility** Supports Windows, macOS, ChromeOS, and Android.
- **USB Bus-Powered** Powered directly by the host, with no external power adapter required.
- **Rugged Two-Bracket Design** Features a durable SECC housing with two brackets for convenient installation.
