USB-C Universal Dual 4K Display Docking Station

Customizable enterprise-grade docking station – Dual 4K Display – Up to 7 USB ports – PD96W charging

The USB-C Universal Dual 4K Display Docking Station is a USB-C docking station designed for professionals, featuring a rich array of connectivity options and stable high-resolution display output to significantly boost productivity. With a single USB-C connection, users can easily link dual 4K monitors, audio devices, Ethernet, and multiple USB peripherals—all at once. Equipped with seven USB ports, including both Type-A and Type-C, it offers exceptional expansion flexibility, making it easy to connect daily essentials like a mouse, keyboard, or external storage without constant plug-swapping.
