BYOD USB-C Extender

Enterprise-grade BYOD USB-C Extender

The HUV6300 BYOD USB-C Extender connects laptops to room displays and USB peripherals through a transmitter and receiver over a single CAT6A cable. It supports up to 4K@30Hz video, USB cameras, audio, touch control, and up to 65W USB-C PD charging for BYOD meeting spaces.

Features

- **Single-Cable Extension** Extends video, USB, audio, and touch signals over one CAT6A cable.
- **Touch Control Support** Extends touch control between the laptop and interactive display.
- **65W PD Charging** Provides up to 65W USB-C PD charging for compatible laptops.
- **USB-A Connectivity** Built-in transmitter USB-A port supports wireless presenters and HID devices.
- **4K Video Support** Supports up to 4K@30Hz video for clear presentations.
- **USB Camera and Audio** Extends USB camera and audio connections for BYOD conferencing.
