USB 3.0 3-Port Hub With Gigabit Ethernet Adapter

USB 3.0 3-Port Hub With Gigabit Ethernet Adapter

The HE3230 combines a 3-port USB 3.0 hub and a Gigabit Ethernet adapter in one compact device. It adds three USB-A ports supporting up to 5Gbps and a 10/100/1000Mbps Ethernet connection through a single USB-A port. Its slim, bus-powered design makes it easy to carry without an external power adapter.

Features

- **Three USB 3.0 Ports** Connect up to three USB-A devices with data transfer speeds up to 5Gbps.
- **Gigabit Ethernet** Add a wired network connection supporting 10/100/1000Mbps speeds.
- **Wake-on-LAN Support** Supports Wake-on-LAN for remote computer wake-up.
- **Energy-Efficient Ethernet** Supports Green Ethernet and IEEE 802.3az for energy-efficient networking.
- **Reduced CPU Loading** Supports IPv4/IPv6 checksum offload to reduce CPU loading.
- **Compact and Bus-Powered** Slim, portable design powered directly through USB, with no external power adapter required.

Specifications

Model	HE3230
Host / Upstream	
Upstream Port (Host)	1 × USB-A 5Gbps
Host Interface	USB-A
USB	
USB Downstream	3 × USB-A 5Gbps
Network	
LAN	1 × RJ45 (1GbE) (Ethernet)
Power	
Power Mode	Bus-Powered
Physical	
Dimension (L x W x H)	91 × 40.5 × 16
Operating Temperature	0–40°C
General	
Storage Temperature	-20–70°C

Features	Ethernet
